

Attachment E—Source Water Protection Reporting Form, FY 2011

Percent of CWSs or SWAs for CWSs with Source Water Protection Strategies In Place and Being Implemented						
State: West Virginia						
Level of Implementation	Strategy in Place and Being Implemented		Substantial Strategy Implementation			
(Columns or rows do not need to add to 100%)						
	CWS/SWA for CWS	Population	CWS/SWA for CWS		Population	
Ground water-based	-----	-----	78	40%	225,810	79%
Surface water-based	-----	-----	153	53%	832,140	69%
Total	-----	-----	231	48%	1,057,950	71%

Percent Change in CWSs or SWAs for CWSs Achieving Substantial Implementation of Source Water Protection Strategies		
State: West Virginia		
	Substantial Strategy Implementation	
	CWS/SWA for CWS	Population
State total (current year)		
Percent change* $\frac{\text{current year} - \text{previous year}}{\text{first year}}$		
* EPA will calculate the percent change based on the previous and first years' data reported by the state.
